

### SP1

We ask questions and come up with our own investigation ideas.

### SP2

We learn and use new scientific vocabulary.

### SP3

Everyone is engaged and curious.

## The SJSB Science Principles

### SP6

Science is linked to other subjects and we talk about how it is applied in the real world.

### SP5

We explore and use a range of equipment and materials - including using the outdoors.

### SP 4

There is collaboration and team work.
