26TH JUNE 2026

*Dream. Believe. Achieve.*

## ESSENTIAL ROOF WORKS

This summer, our school will be having essential roof works done which will include a new roof in areas of the school. The works were due to start in the summer holiday, but have been moved forward due to timescales needed for the works. As such, the scaffolding and site offices will be set up from Monday 29<sup>th</sup> June, which will have some impact on our school site.

Our school entrances will stay the same and pathways will be accessible. However, these could be narrower due to scaffolding poles. **Please be mindful** of this at busy times.

The site offices will be based outside the main office on the car park. The main office will still be accessible.

At drop off and pick up times, it is important that **children stay with their adults** to ensure safety around work related materials.

## OUTDOOR INSTALLATIONS

On 8<sup>th</sup> July, we are having two exciting installations built on the school grounds as part of ongoing school improvements. These include an outdoor classroom on the KS2 yard and a reading Pavillion on the KS1 yard. The installation will last around one week.

There will be contractors onsite to complete the works - please again ensure **children remain with you at drop off and collection and do not touch the work materials.**
